

AMWAY HEAD OFFICE AND RETAIL SHOWROOM

This classic fast track fitout of the ground floor showroom for Amway NZ was tendered at the last minute and completed within record time. All works had to be coordinated with the ongoing Landlord's works to the main entrance which provided a significant obstacle for access of men and materials into our area of works.

Canam were able to mobilise our labour force, Canam Joinery and outside sub-contractors to complete a high specification project to the highest quality. The design called for major modifications to the existing ceiling, new Air-conditioning plant, feature lighting throughout, fire rating, new resin flooring, and a significant amount of cabinetry and display counters.

All the works were delivered installed and complete well ahead of schedule for the clients grand opening which had been advertised on local radio some time in advance.
