

KFC MOMENTUM STAGE 1 & 2

KFC Momentum involved the exterior upgrade of 12 existing KFC stores throughout Auckland which was split into two stages.

The scope of works included generally refurbishing and making good existing external areas as well as repainting all stores to provide a clean and simple, yet eye catching appearance to the public.

Maintaining the programme due to the countless days of wet weather proved to be a challenge for all involved with the added problem of all stores being fully operational during the works.

The overall result was within budget and with minimal disruption to both staff and the general public.
